

What is Ocean Air?

OCEAN AIR is a strong, odour-masking deodoriser formulated for washing and mopping heavily soiled floors and hard surfaces.

Key Benefits

- ✓ A beautiful fresh residual perfume
- ✓ A biodegradable detergent
- ✓ Odour-masking action which is excellent in problem areas
- ✓ Re-odorises through the day

How Does It Work?

OCEAN AIR is a strong odour-masking deodoriser with a powerful cleaning action that leaves surfaces clean and perfumed with a pleasant fresh fragrance. OCEAN AIR is very good for treating offensive odours where a powerful residual perfume is required.

For Use On...

OCEAN AIR is ideal for washing and mopping all hard surfaces including polished floor, tiled areas, fittings, glass and walls.

OCEAN AIR is also ideal as an air freshener in an atomiser spray gun.

Technical Data

Composition

OCEAN AIR is formulated with premium surfactants which attack and disperse soilage matter and strong perfume extracts that cling to surfaces and re-odorise throughout the day.

Properties

COLOUR – Transparent Dark Green liquid
 ODOUR – Fresh fragrance
 pH = 6.0 – 7.0
 FOAM – Moderate foam action

Environmental Care

OCEAN AIR conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. OCEAN AIR is non-flammable, phosphate-free and biodegradable. OCEAN AIR containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

Colour Coding

Product identification is made easy with the Agar Colour Coding system. We have 11 different categories of product that are identified by colour and number. The product itself has this colour. Also, the colour and number are shown:

1. On the bottle label as supplied.
2. On the matching Dispenser Spray Bottle.
3. On the product chart for Colour Coded Cleaning

This system has benefits of reducing the chance of using the wrong product, making compliance and staff training easy, showing that the correct products are being used and providing information about usage, dilution and first aid.

Product	Code Colour	Code Number	Type
OCEAN AIR	Dark Green	6	Air Freshener

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 3 30 April 1996 SAI Certificate No.: QEC7358

Application

OCEAN AIR is especially useful for cleaning problem toilet areas, washrooms and bathrooms. It is also excellent for cleaning kennels and animal enclosures.

- **General cleaning of floors, walls, glass etc:**
 Dilute to 1 in 50-100 with water, depending on soilage.
 This is about 2/3 cup per wringer bucket of water.
- **Offensive and putrid odours:**
 Remove source of odour and rinse or mop with a 1 in 10 dilution. DO NOT RINSE. For extreme odours, neat OCEAN AIR may be applied.
- **Air Freshener:**
 Dilute to 1 in 30 with water and spray high into the room with a hand spraygun.

Disposal Information

1. Used solutions -

Used Solutions of OCEAN AIR should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rainwater and ultimately lead to the local river system.

2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container).

If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the wastewater.

Remember, do not mix different cleaning products together during disposal!

3. Empty packaging

Bottles and drums

Our 5L and 20L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. OCEAN AIR containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

Cardboard cartons

Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 5L, 20L

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
