

What is Spot Wiz?

SPOT WIZ is a versatile, effective general purpose carpet spotter with citrus-based ingredients. Pre-packed in ready to use spray packs, SPOT WIZ is ideal for distribution to all cleaners for immediate use on spots and spills. Also ideal for household use.

Key Benefits

- ✓ Ready-to-Use
- ✓ Excellent cleaning power
- ✓ Safe to use on all carpets, even new stain-resistant nylons
- ✓ Contains biodegradable surfactants, no added phosphates
- ✓ Environmentally preferable

How Does It Work?

SPOT WIZ is a biodegradable cleaner for removing spots and spillages from carpet and fabric upholstery.

For Use On...

SPOT WIZ is designed for use on all types of carpet including hard to clean, low-cost acrylics, new generation, stain resistant nylons and pure wool or wool blend carpets as well as Persian rugs, bleeders, and printed carpets. SPOT WIZ can also be used on upholstery fabrics.

Technical Data

Properties

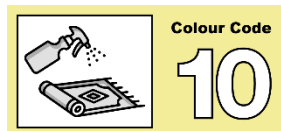

COLOUR – Yellow transparent liquid
ODOUR – Orange perfume
pH = 9.0 – 10.0

Environmental Care

SPOT WIZ conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. SPOT WIZ is non-flammable, biodegradable, phosphate free and based on re-growable, natural resources. Containers are recycled wherever possible.

Colour Coding

Product identification is made easy with the Agar Colour Coding system. We have 11 different categories of product that are identified by colour and

number. The product itself has this colour. Also, the colour and number are shown:

1. On the bottle label as supplied.
2. On the matching Dispenser Spray Bottle.
3. On the product chart for Colour Coded Cleaning

This system has benefits of reducing the chance of using the wrong product, making compliance and staff training easy, showing that the correct products are being used and providing information about usage, dilution and first aid.

Product	Code Colour	Code Number	Type
SPOT WIZ	Beige	10	Carpet and Spot Cleaners

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

Storage

SPOT WIZ is stable for 12 months. Store in the original sealed container and keep out of direct sunlight. Also avoid storing the product in extremes of temperature; try to keep it between 10- and 30-degrees C.

Solutions of SPOT WIZ should be used up within 6 – 8 hours of dilution. After this time, they may begin to lose their effectiveness.

Application

IMPORTANT: Before use on fabric, test on a small, inconspicuous area that SPOT WIZ does not change the colour. To do this, dab SPOT WIZ onto fabric then rub with a clean, white cloth. If colour appear on white cloth or if fabric changes, then do not use SPOT WIZ. Do not use on any fabric that is harmed by water or on leather, silk, velvet, corduroy or Indian Cotton.

- Test fabric is colourfast (see above).
- Remove as much loose soil and moisture from the area as possible.
 - For wet soil: mop up then absorb with clean, white cloth or tissue.
 - For dry soil: carefully scrape area to loosen soil, then vacuum up.
- Apply SPOT WIZ to the remaining spillage using pump spray to dampen the fabric or carpet. Only clean a small area at a time, no greater than 10cm x 10cm. Do not overspray or over-wet the fabric.
- With a clean, damp sponge or cloth work the SPOT WIZ evenly into the spot, working from the outside of the spot towards the centre with firm strikes. Do not rub in circles but in straight strokes. Rinse sponge or cloth frequently to keep clean. Repeat action until all the spillage is removed. Problem areas may need extra cleaning.
- Dry the clean area by blotting with clean, white towel, paper or tissue.

IMPORTANT: when carpet or upholstery has completely dried, vacuum area to remove any dirt-holding residues.

Disposal Information

1. Used solutions -

Used Solutions of SPOT WIZ should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rainwater and ultimately lead to the local river system.

2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container).

If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the wastewater.

Remember, do not mix different cleaning products together during disposal!

3. Empty packaging

Bottles and drums

Our 5L and 20L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. SPOT WIZ containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

Cardboard cartons

Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 750ml, 5L
